The DEVICE section contains a rotary switch for DISPLAY SELECTION with positions for PICU, SYNC, and OFF. It features several push buttons: EPROM ICI, SPARE, OPER STOP, and PICU. A vertical column of buttons includes EN (up arrow), DL (down arrow), and DIS (down arrow). At the bottom, there are seven more push buttons labeled CCS, VE-LW, VE-DA, TTW, SYN, IBL, and VES.

SMR-MU

TEST IOC PF

TEST IOS RESET

RCP

PICU

The SMR-MU section features two rows of buttons. The first row has TEST, IOC (with sub-buttons 6, 5, 4), and PF. The second row has TEST, IOS (with sub-buttons 24, 23, 22), and RESET. Below the buttons is a rack containing two modules labeled RCP and PICU.
